PROFILE

Mobile Engineer with 2+ years of experience building and shipping cross-platform applications using Flutter and Dart. Successfully deployed 6 production applications across the Play Store, App Store, and AppGallery, integrating Firebase, RESTful APIs, and state management solutions such as BLoC, Riverpod, and Provider.

PROFESSIONAL EXPERIENCE

Mobile Engineer *Avidea*

11/2024 – present
Tunis, Tunisia

- Developed and maintained mobile applications for internal products and external clients, taking ownership from feature design through deployment.
- Led development and deployment of **4 applications** across Play Store, App Store, and AppGallery: [DigiExpert](#), [DigiConstat](#), [E-Constat FTUSA](#), and [Ctama Claims](#).
- Monitored app stability across multiple production apps using Firebase Crashlytics, maintaining crash-free session rates between 99% and 99.9%.
- Delivered additional 2 mobile applications for external clients outside the standard app store deployment pipeline.
- Conducted code reviews for external client projects to ensure code quality and adherence to best practices.
- Mentored 2 mobile development interns, providing guidance on Flutter best practices and project workflows.
- **Technologies:** Flutter, Dart, Firebase, Cubit, BLoC, Provider, MVVM, Git, Jenkins, Jira, and Postman.

Mobile Engineer *Think-it*

08/2024 – 11/2024
Tunis, Tunisia

- Implemented proposal management, voting, and proposal creation features for **Hypha Wallet**, a blockchain-based DAO app.
- **Deployed on:** [Play Store](#) | [App Store](#)
- **Technologies:** Flutter, Dart, GraphQL, Firebase, BLoC, GitHub, GitHub Actions, and Blockchain.

Mobile Developer Intern *Think-it*

02/2024 – 08/2024
Tunis, Tunisia

- Built **Swarm**, an internal mobile application that improved employee engagement through social features, office management tools, and location-based services.
- **Technologies:** Flutter, Dart, Firebase, Provider, Git, GitHub Actions, Postman, Notion, and Mapbox.

Mobile Developer *BoutiqGo*

09/2023 – 02/2024
Tunis, Tunisia

- Contributed to the development and maintenance of **BoutiqGo**, a cross-platform e-commerce application built with Flutter.
- Improved overall performance by approximately **30%**, while refactoring existing features to enhance stability and scalability.
- **Technologies:** Flutter, Dart, GetX, Firebase, REST API

PROJECTS

C1EURO, *Freelancer*

09/2024 – present

- Developed key features for **C1EURO**, **C1EURO Pro**, and the admin application, a suite of shopping platforms integrating Apple Pay, Google Pay, Google Sign-In, and advanced map functionalities.
- **Deployed on:** C1EURO ([Play Store](#) | [App Store](#)), C1EURO Pro ([Play Store](#) | [App Store](#))
- **Technologies:** Flutter, Firebase, Provider, Node.js, Stripe, Apple Pay, and Google Pay.

Ducas, *Freelancer*

07/2025 – 01/2026

- Built core driver features for **Ducas**, a ride management app enabling ride invitations, forwarding, and real-time status tracking between professional drivers.
- Implemented interactive map-based ride details, availability management, and coverage-area selection, along with ride history, performance statistics, and wallet balance tracking.
- **Technologies:** Flutter, Firebase, Riverpod, Postman, Figma.

Umah, *Junior Enterprise INSAT*

09/2023 – 03/2024

- Served as Project Manager and Mobile Developer for **Umah**, a student services mobile application provided to an external client through Junior Enterprise INSAT.
- Built service discovery, provider profiles, ratings, and an onboarding flow focused on accessibility and user engagement.
- **Technologies:** Flutter, Dart, GetX, Figma, NestJs.

- NourishNow, CodeCanyon Author

01/2023 – 06/2023

- Built and published two Flutter apps for multi-restaurant food delivery and admin management, featuring real-time order tracking and secure payments.

- Sold to 11 customers on CodeCanyon, a commercial marketplace for premium application templates.

- **Technologies:** Flutter, Dart, Firebase, GetX, TypeScript, HTML, CSS, Hugo, Photoshop, and Git.

EDUCATION

- Computer Science Engineering Program,

National Institute of Applied Sciences and Technologies (INSAT)
